

**QUADRANET**  
POWERING HOSPITALITY

**Described by international media as the ‘hottest table in town’, La Sala is beautiful in its simplicity – unrivalled service, great entertainment. Its hospitality guest management system has to complement our chic and busy operation and we rely on Quadrinet’s system across our enterprise to do just that.**

**Regional Operations Manager, La Sala**

# About Our Company

**Big enough to react, small enough to care.**

Quadrant is a company built on solid foundations. With 20 years experience in the ever-changing world of hospitality, our intelligent technology powers restaurants, cafes, pubs, events spaces and many more.

We are the one-stop shop for the entire customer journey, including EPOS, Reservations, Stock Control, Loyalty, Online Ordering and much more! Whichever elements you choose, they will work together seamlessly to support and grow your business.

You aren't a number in a queue, the success of your business is our priority. Come on board and see why our customers are winners.

# Floor Manager

Everything you need to run the floor.

A complete terminal and tablet-based EPOS system that streamlines the ordering process and helps manage all your money-taking challenges like discount management, deposit tracking, prix fixe, special price lists, split bills and loyalty or gift card payments.

Make and amend bookings, check your arrivals, manage waiting lists and view your guest notes. Seat your arrivals and take their orders in one simple action.

Customer data including favourite dishes, most frequently ordered drinks and spend data are fed back to their Reservations profile.

Available on any device through WiFi or 4/5G.

Our online booking widgets are branded to your site - or you can even design your own! Your customers will be able to complete a booking within a few simple steps.

Behind the scenes is a powerful booking engine which works in real-time, with an algorithm allowing you to seat bookings at your maximum potential.

Features include multiple locations, promotions, deposits, pre-authorisations, automatic email and SMS confirmations.

# Enhance your EPOS

## Chef Screens: the kitchen at your finger tips

Chef Screens are an intuitive and invaluable tool that puts the kitchen at your fingertips. With real-time status information for every order and 2-way communication with front-of-house, you can maintain a smooth-running, cost-effective kitchen while optimising food quality.

## Stock: controlling costs

Our comprehensive Stock Control Package complements your EPOS system, allowing you to take complete control of purchasing, transfers, recipe spec sheets and giving you line by line analysis of your stock movements, GP% and margin reporting.

**Since moving to Quadranet, I have only been impressed with their professionalism and software solutions. No regrets, no looking back!**

World Service, Nottingham

# Customer Engagement

Grow your business with Quadranet.

## QuadRewards

The complete app based loyalty and gift card solution.

Offer customers rewards in the form of points, discounts and gift vouchers using our fully integrated customer engagement solution. Keep in touch using push notifications.

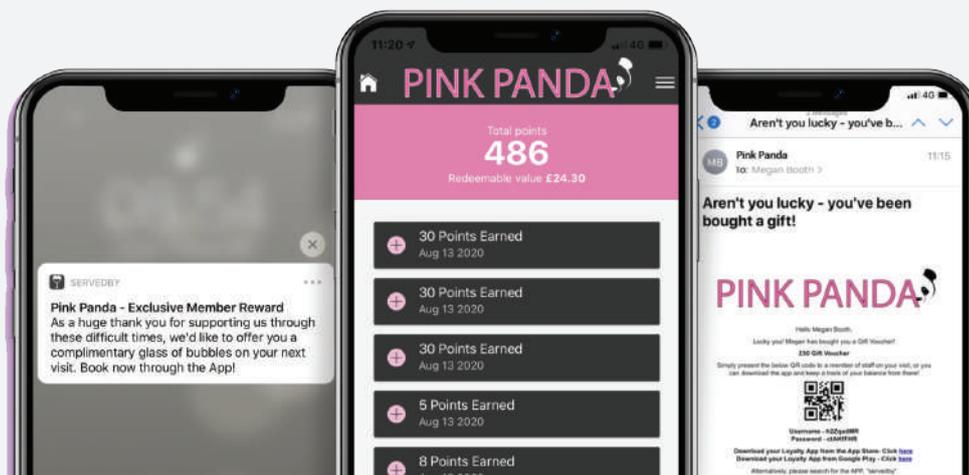

Flexible rule creation allows you to control your business and reward your members. For example, offer 10% off main courses on a Monday, a free glass of fizz on a Friday or double points when dining early evening – the possibilities are endless.

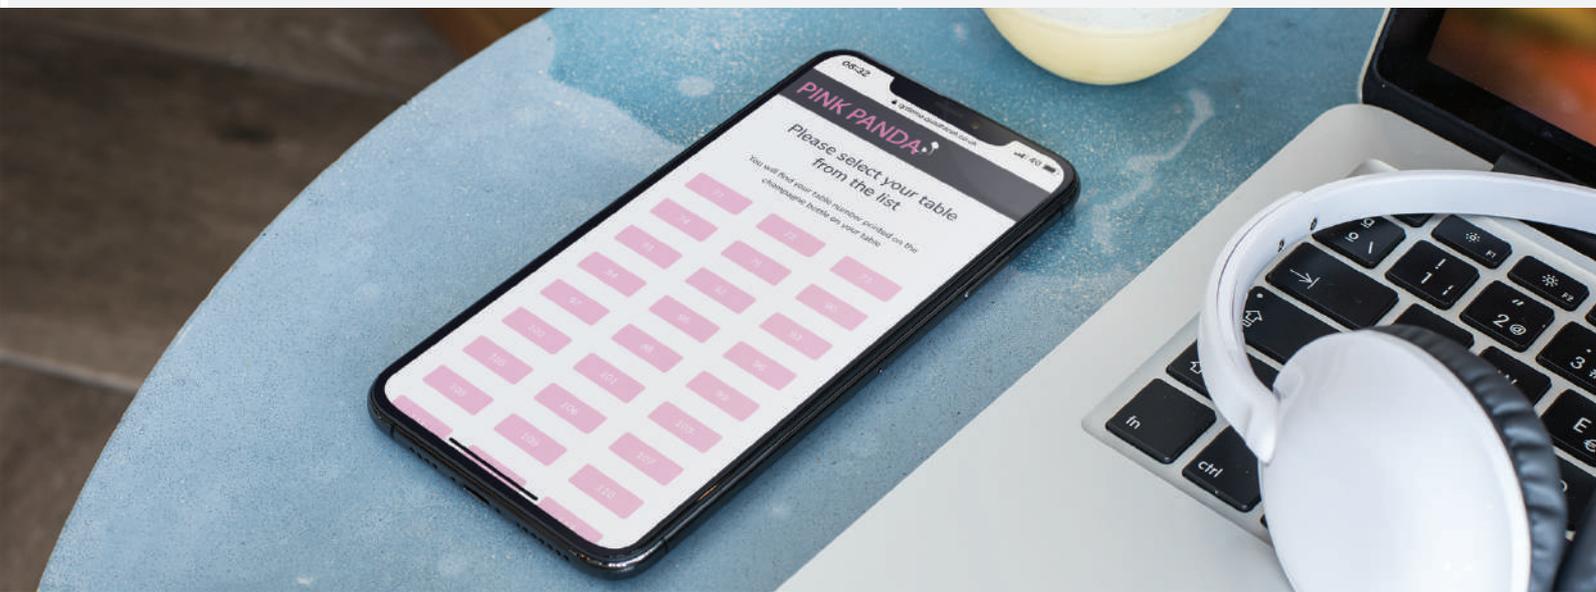

Sell gifts and e-vouchers through your website with **0% commission**.

**Due to the loyalty preload function, we were able to use a social media campaign to gain nearly 200 members within half an hour! The flexibility of QuadRewards allows us to control our own promotions and increase our number of return customers, resulting in our member spend per head doubling since going live.**

Laundrette, Chorlton

## Online Ordering

Our white-label online ordering module uses both web & app platforms and seamlessly integrates with Quadranet EPOS. This includes item set up, automatic printing, stock control and reporting.

### Order at Table

Virtually display your menus and allow your customers to place their order and pay from their table on their own device.

### Take Away

Offer both collection & delivery with configurable time slots, delivery costs and order management through our online dashboard.

### Pay at Table

If you'd prefer to take your customers order manually, then that's no problem! You can still allow your customers to pay for their bill at the end of the meal from their own device.

Visit our website to view our payment integration partners.

# Business Control

What gets measured, gets better.

**Quadranet provides the intelligence you need to increase your profits.**

Daily automated reports deliver highly detailed sales information for previous days and weeks sales, including historical comparisons.

Make labour planning easier with reports on your future covers, sales by hour and staff attendance.

Interactive reporting enables you to drag and drop your data in order to process the information you require.

Know your customers through customer reporting.  
What they drink, how often they visit and how much they spend.

**In my opinion, you will not find a better system for the cost than Quadranet – we did extensive research looking at over 20 different EPOS providers before settling on Quadranet.**

Fuller, Smith & Turner PLC - Tenanted Division

# What We Offer To You

## **Your call will be answered.**

We tailor our support to meet the specific requirements of your business but, whatever support level you choose, you can be sure that we'll be there.

## **Your call will be understood.**

Our staff come from a wide range of backgrounds across the hospitality sector so you can be sure that they don't just understand your system, they understand the requirements of your business.

## **Ongoing Development.**

We're always looking to innovate and develop our systems to meet your changing needs. You can be confident that a powerful IT foundation is backing your business, ensuring that new features and upgrades asked for by leading restaurants are made available to you.

**Our experience with Quadrinet from initial discussions, through to installation, training and ongoing support, has been a professional experience throughout. Bla Bla Beach Club is a significant size business with 53 operating POS terminals across multiple facets of the venue, and Quadrinet have proactively managed all aspects to ensure our business experiences a smooth start-up.”**
